Subject: Join the UCF Knights Team at the Greater Orlando Heart Walk

Knights,

Once again, the University of Central Florida will have a team at the American Heart Association Greater Orlando Heart Walk. UCF Knights have participated in this worthy cause for several years, and I invite you once again to lend your support this November.

Join the UCF Knights – and more than a million people across America – to raise awareness about heart disease research and prevention. You can support this effort in one of three ways: by walking in the event, by volunteering, or by making a donation. Funds from the walk support research into heart disease, pediatrics, and stroke.

The UCF Heart Walk season begins with a kick-off breakfast on Friday, September 9 and culminates with the Greater Orlando Heart Walk on Saturday, November 12. Visit www.ucffoundation.org/heartwalk to find details about the walk and to join the UCF Knights team. We are proud to participate once again in this important initiative.

Thank you for your contributions of time, effort, and funds. UCF Knights are committed to making a difference in the world around us.

Charge On!

Alexander N. Cartwright
UCF President
